SHAIREEN L. MANZANO

FULL-STACK WEB DEVELOPER

OBJECTIVE

Passionate and detail-oriented Web Developer with experience in frontend and backend development using HTML, CSS, JavaScript, PHP, and MySQL. Seeking to contribute to a dynamic team where I can grow professionally and help build scalable, user-focused web applications.

EDUCATION

Forbes College

SY: 2020-2024

Bachelor of Science in Information Technology

Relevant Coursework: Software Development, Web Development and Design, Database Management Systems (MySQL), Data Structures and Algorithms, and System Analysis and Design

WORK EXPERIENCE

Myracle Innovation, Inc. - Junior Web Developer(August 2022 – October 2024)

- Built and maintained responsive websites using HTML, CSS, JavaScript, Bootstrap5.
- Developed dynamic back-end systems using PHP and MySQL.
- Integrated third-party APIs and internal tools for improved workflows.
- Collaborated with designers and developers using GitHub and Git.
- Provided regular updates, technical documentation, and support for clients to ensure satisfaction and project success.
- Contributed to team projects by sharing innovative ideas and staying updated on the latest web development trends.
- Contributed to internal CMS, blog systems, reservation portals, and e-commerce platforms.

PROJECTS

Car Rental Web App System

- A web application for booking car rentals with three roles: driver, passenger, and admin.
- Features include SMS OTP verification, car listings with filtering, real-time booking, notifications, and admin approval of driver account registrations.
- Only approved drivers can access the system and receive booking requests.
- Both driver and passenger interfaces include a built-in chat messenger for real-time communication.
- Tech stack: PHP, MySQL, HTML, CSS, JavaScript, AJAX, Bootstrap, SMS API integration
